Fixed Shelf

**36H**  
Fixed Shelf  
Adjustable Shelf

Stevens Advantage valance units are designed to allow continuous valance aprons under wall units. A finished end/drop left or drop right indication lowers the designated end panel to align with the valance rail. Field cutting of intermediate sides is not required to install under-cabinet valance lighting. Return corners are not required upon installation.

**LEFT FRONT CORNER**

Because cabinet bottom is set up in relation to door bottom edge, exposed hinges will not align with conventional cabinet hinge locations.
