**HOW TO ORDER**

To order, provide the model number, followed by the desired nominal width, height, and depth, chosen from the available sizes listed.

For example, to order a 10761 cabinet that is 36" wide by 35" high by 23" deep, specify: 10761363523
SPECIFYING TOP AND SHELVING MATERIALS

For units that include tops and for reagent shelving, the top and shelving materials must be specified as part of the model number when ordering. This selection is made through a 2-digit code after the nominal depth. Top and shelving material charts in the Wall and Laboratory Casework sections list the codes and descriptions, as shown in the examples below:

HOW TO ORDER
To order, provide the model number, followed by the desired nominal width, height, and depth, chosen from the available sizes listed, followed by the top material code.

For example, to order the 49200 Student Island Table, 72” wide by 36” high by 30” deep, with a 1” epoxy top (black), specify: 4920072363029

HOW TO ORDER
To order, provide the model number, followed by the desired nominal width, height, and depth, chosen from the available sizes listed, followed by the shelving material code.

For example, to order 45366 Reagent Shelving, 72” wide by 24” high by 12” deep, with 1” epoxy shelves (black), specify: 4536672241229

Design Information

Blocking Locations

Tall

Locate 2" x 6" wall blocking 1" down from top of tall cabinet above finished floor (A.F.F.) height.

See elevation drawings for height above finished floor.

Universal location of 2" x 6" wall blocking for 29H, 32H, and 35H base unit and tall unit frame rail.

For special height base units, locate blocking at height above finished floor the same as base unit height.

32 1/4"

Finished Floor

84H Tall (typ.) (2137mm)
Locate 2" x 6" wall blocking 1" down from top of wall cabinet above finished floor (AFF) height.

See elevation drawings for height above finished floor.

Locate 2" x 6" wall blocking 1" up from bottom of wall unit.

Universal location of 2" x 6" wall blocking for 29H, 32H, and 35H base unit and tall unit frame rail.

For special height base units, locate blocking at height above finished floor the same as base unit height.

36H Wall (typ.)
(916mm)

35H Base (typ.)
(889mm)

29H Base (typ.)
(729mm)
Blocking Locations
Shelf Standard/Countertop Bracket

Locate 2" x 6" wall blocking at top and bottom of wall shelf standard.

Intermediate additional 2" x 6" blocking recommended for wall standard lengths above 48".
(Add blocking if field conditions require.)

Locate 2" x 6" blocking 1" below countertop above finished floor (A.F.F.) height.

Set bottom blocking same height above finished floor (A.F.F.) to bottom of counter support.

</table>
Standard letter (15W) and legal (18W) file cabinets have drawer sides designed for hanging files (front-to-back filing). Optional crossbars allow letter or legal side filing.

Lateral file cabinets (30W and 36W) have a front hanging rail and a movable crossbar that accommodate side filing of legal or letter size files. Optional crossbars are available to allow front-to-back filing of letter/legal files (36W units) and letter files (30W units).

Crossbar can be relocated for letter size files

See Base/Tall sections for ordering information.

- **Maximum Sink Depth**
  - Front to Back of Rim
  - 19 3/4" Recommended

**NOMINAL 23 SLIDING DOOR SINK CABINET DEPTH**

- **Maximum Sink Depth**
  - Front to Back of Rim
  - 16 3/4" Recommended
VERTICAL PULL ORIENTATION
(standard)

Drawer pulls are centered (top to bottom, left to right) on drawer fronts.

HORIZONTAL PULL ORIENTATION

Pulls on top drawers align with pulls on full-height base doors.

All drawer pulls are positioned the same.
