10940

Lateral File Drawer
with two pairs of optional file bars installed
for front-to-back filing

SLOPE TOP

Stevens Advantage slope top units are designed with integral slope ends, eliminating the need for on-the-job fabrication of slope structures. Overlay slope cover panels are shipped with length and end edging for final fit and sizing as installation field conditions may require. Stevens Advantage slope design incorporates a full 3/4" thick slope top on a 25° constant rising slope. Slope top options are available on nominal cabinet depths of 14", 18", 21", and 24". Slope tops not recommended for cabinet height above 84", due to possible ceiling interferences. 26816 Slope Top Cover Panels must be specified and ordered separately (not included with cabinet units).

Nominal Unit Depth	Rise	
	inches	mm
14	7	177.9
18	8 3/4	222.6
21	10 3/8	262.8
24	11 1/2	292.8

ATTACHED TOE KICK

For a finished look on an open bottom cabinet with doors, an Attached Toekick is offered on some units. The toekick is black and can have vinyl base applied directly to it.
