BAND AND MUSIC

Features: Instrument Storage

INSTRUMENT STORAGE

- Compartment sizes for small to large instruments.
- Stevens Advantage laminate selections.
- $\frac{3}{4}$ "-thick construction with laminated faces and high impact 3mm extrusion edges.
- Exclusive one-piece wraparound Scuff-Gard™ shelf protection.
- Individual solid doors and full solid doors.
- Individual Acousti-Grille doors and full Acousti-Grille doors.
- Self-latching lock hasp with easy trigger release on solid and Acousti-Grille doors.
- Full height (84H), mid height (68H) and counter height (37H) storage options.

HIGH IMPACT EDGES

High impact 3mm edges stand up to years of use.

INTERIORS

Interiors have Pearl White laminate for maximum light reflectivity and cleanability.

PADLOCK HASPS

Strong self-latching lock hasps with easy trigger release are a standard feature on Acousti-Grille and solid doors. Padlock hasp offers security. Label holders accommodate a wide variety of engraved plastic or other numbering devices. (padlocks not included)

SCUFF-GARD™ SHELF PROTECTION

Shelves have exclusive one-piece wraparound Scuff-Gard™ shelf protection, engineered from high impact ABS with raised tread design for airflow and easy cleaning.

PATENTED FIVE-KNUCKLE HINGES

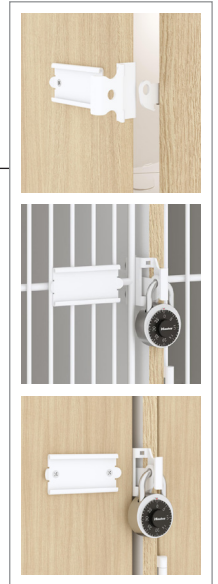

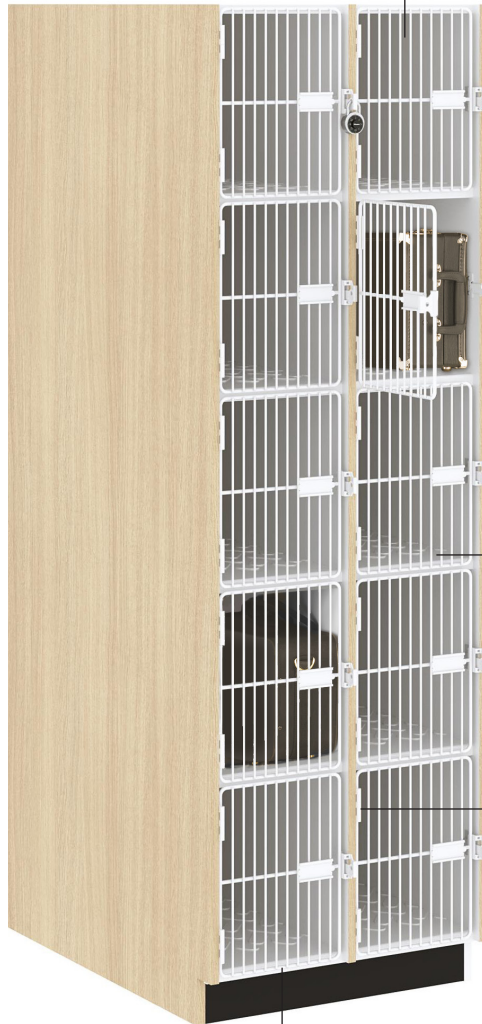

Proven institutional quality and strength stand up to the rigors of everyday music room use. Door hinges are five-knuckle style, safety-tipped with non-removable pins, and allow 180° door swing for maximum access. Interior mounting maintains attractive appearance of face and sides. 5mm thread-in screw bolt attachment on solid doors and Acousti-Grille doors.

ACOUSTI-GRILLE DOORS

One-piece, all-welded heavy gauge grille doors with powder coated finish.

SOLID DOORS

3/4"-thick solid doors with high impact edges (shown with thru-bolt option).

BAND AND MUSIC

Features: Folio Storage

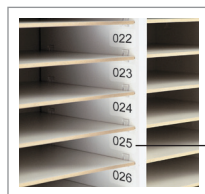

COMPARTMENTS

1/4" folio shelves are adjustable and removable.

CASTERS

Casters are bolted to steel reinforcing channels with end bolts extending through the bottom channel and panel into a cross-locking nylon insert at the four bottom corners. Four large 5" swivel casters (two with tread locking brakes) for easy rolling and tough duty.

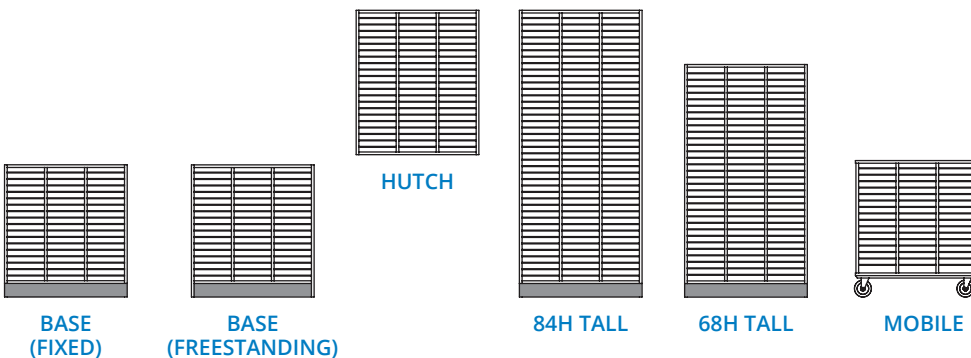

FOLIO SHELVES

Number labels can be added to identify each slot.

FOLIO STORAGE

- Designs for band/orchestra, choral and marching band.
- Base (fixed and freestanding), hutch, tall and mobile designs.
- Stevens Advantage laminate selections.
- 3/4"-thick construction with laminated faces and high impact 3mm extrusion edges.
- Shelves have 1 7/8" (48mm) spacing, with typical compartment opening of 1 5/8" (42mm).
- Heavy-duty casters, bolted to steel reinforcing channels, create a very stable and rigid structure that withstands rolling over uneven floors and thresholds.
- Choice of locked solid doors or open designs.

Features: Uniform / Accessory Storage

SOLID DOORS

¾"-thick solid doors have 180° door swing and high impact 3mm edges.

Full Acousti-Grille doors also available.

HANGER BAR

Heavy chrome steel oval tubing with end sockets.

PATENTED FIVE-KNUCKLE HINGES

Proven institutional quality and strength stand up to the rigors of everyday music room use. Door hinges are five-knuckle style, safety-tipped with non-removable pins, and allow 180° door swing for maximum access. Interior mounting maintains attractive appearance of face and sides. 5mm thread-in screw bolt attachment on solid doors and Acousti-Grille doors.

INTERIORS

Interiors have Pearl White laminate for maximum light reflectivity and cleanliness.

OPTIONAL VENTILATION GRILLES

Attractive ventilation grilles, top and bottom, enhance airflow.

UNIFORM/ACCESSORY STORAGE

- Uniform, robe, hat, rifle, banner/flag and general storage.
- Stevens Advantage laminate selections.
- ¾"-thick construction with laminated faces and high impact 3mm extrusion edges.
- Choice of locked full solid doors, open design or locked full Acousti-Grille doors.
- Powder coated wireform shelves allow air to circulate around hats and other stored items.

MODEL NUMBER DEFINED

Cabinets are defined using the 5-digit model number associated with the design illustration. The complete unit definition requires the width, height and depth suffix to properly identify the cabinet desired.

HOW TO ORDER

To order a cabinet, provide the model number, followed by the desired nominal width, height and depth, chosen from the available sizes listed.

For example, to order a 55414 cabinet that is 23" wide by 84" high by 29" deep, specify:
55414238429

Music Room: Rehearsal Resource Center

REHEARSAL RESOURCE CENTERS

Rehearsal Resource Centers help organize lesson materials and put computers and electronics at your fingertips.

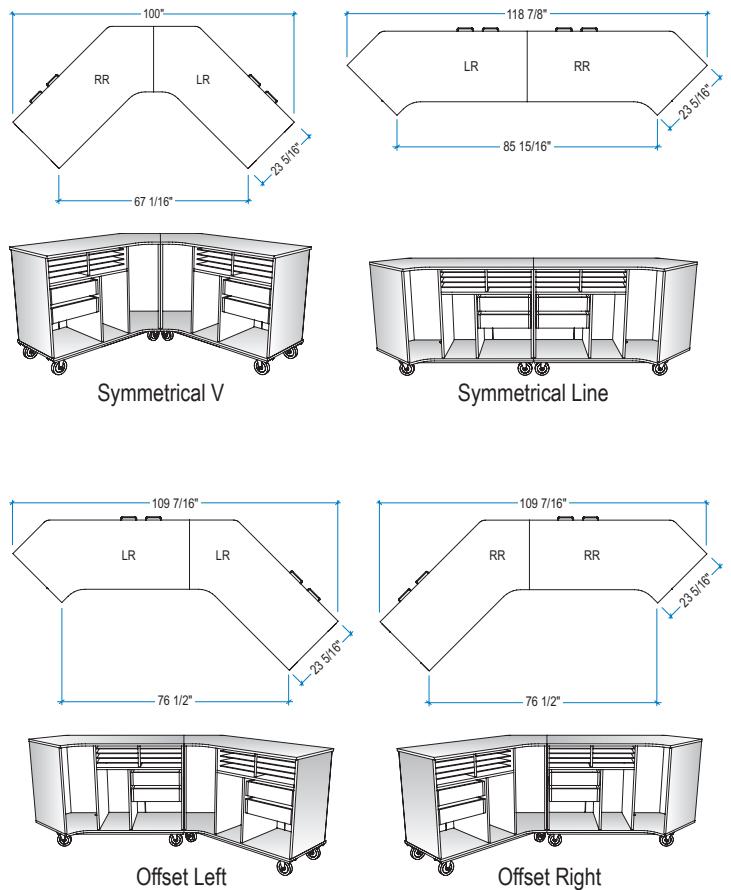

- Drawers or racks
- Power strip and cord with master switch
- 5" casters for easy mobility
- Locked rear access doors on all units
- Available with locked doors on main compartment
- Optional speaker shelf

Music Room: File Drawer

File units must be securely anchored.

FIXED FILE DRAWERS

Fixed file drawer units are installed for a permanent type installation. These units are typically part of a larger fixed installed elevation and require an additional countertop. Unit exterior backs are unfinished with exposed elevation ends laminated in selected laminate choice. Toe kick areas typically covered with a vinyl base application by flooring contractor. Fixed file drawer units are available in Stevens Advantage laminate patterns.

Letter and legal file drawers are designed for front-to-back filing. Optional crossbars allow side filing.

Lateral file drawers are designed for side filing. Optional file bars allow front-to-back filing.

See Installation Accessories.

BAND AND MUSIC

Instrument Storage: 68H

68H units require specification of added 59830 overlay top.

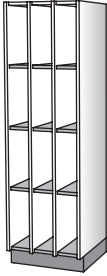

68H INSTRUMENT STORAGE

Stevens recognizes that standard 84" high storage units may not always be the optimum choice. Lower units that require shorter reach heights can utilize valuable floor area and provide more ergonomic reach height solutions. Stevens Advantage Band and Music includes an extensive grouping of 68" high units for such applications. 68H may be a great choice for elementary and middle school band rooms where overall reach of younger musicians is at issue. 68H units require the 59830 overlay top to finish the top surface. The top surface area is an ideal storage level where individual lower access is not required but utilizes valuable upper room space. A wide choice of compartments with few limitations of specific instrument types is offered.

These 40"-deep units are factory assembled with fasteners suitable for in-field disassembly, allowing access through restrictive areas and doorways.

Instrument Storage: 37H

37H units require specification of added 59830 overlay top.

37H INSTRUMENT STORAGE

Stevens recognizes that standard 84" high storage units may not always be the optimum choice. Lower units that require shorter reach heights as well as counter height applications can utilize valuable floor area and provide more ergonomic reach height solutions. Stevens Advantage Band and Music includes an extensive grouping of 37" high units for such applications. Our 37H units are ideal as a counter height application that utilizes valuable undercounter space. These base style instrument storage units can be applied under windows or other obstructed wall areas which prevent use of tall units. They have all the same durable surface, shelf materials and choices of open, Acousti-Grille or solid door designs. 37H units require the 59830 overlay top to finish the top surface, providing a convenient counter height work area.

Diagonal Corner Storage: Instrument / Equipment

DIAGONAL CORNER STORAGE

Stevens Advantage Diagonal Corner Storage cabinets utilize the dead corner space when L-shaped corners fall in plan applications. The many standard designs can be applied to any room use. Designs vary from instrument/equipment, uniform, robe and flag storage to basic general storage. Some units have fixed shelving, while others feature a full height pivoting turret mechanism to bring the stored items to you. Instrument/equipment storage shelves have the same Scuff-Gard™ high impact molded cover as our regular instrument storage. Turret designs have welded and Pearl White power coated components. Units are available open, full solid door and full Acousti-Grille door. Interiors are Pearl White laminated with finished ends and fronts chosen from Stevens Advantage laminate patterns and 3mm edgings.

Music Library: High Density Storage System

Right Access

Left Access

HIGH DENSITY MUSIC LIBRARY

Stevens Advantage High Density Storage System makes the most use of valuable space. Imagine replacing all those filing cabinets with a convenient, accessible, rollout shelf design. The expandable system is available in 2-, 3-, 4-, 5- and 6-wide module configurations. 84H models have six shelf levels, and 92H models have seven shelf levels. Units can be ordered as left face or right face accessible. Modules are sub-assembled at the factory, with final system installation required in the field by a skilled professional.

The system assembly consists of metal tube frame structural members with laminate wood components for gauging, closure and overall aesthetics. End panel closures are provided at finished end locations. Top closure panels are included to prevent dust and debris from entering into the storage unit from above. Shelf interior widths are 34½". Shelves are predrilled for wire loop shelf dividers (4 per shelf included). Adjustable shelves are located on 1¼" centers.

The closed depth of the cabinet is 43¼", and the extended depth is 80" plus handle.

The Stevens System rolls out on four 5" diameter caster wheels mounted into a one-piece welded steel bottom structure. Unlike others, Stevens rollout modules are divided with an all-welded steel framing and have upper and lower slides for easy tracking and control.

Shelf modules are ¾" materials with rigid dowel construction. Shelving units are laminated Pearl White with 3mm edgings. Steel parts have powder coated white finish. Finished end panel closures and fronts can be chosen from Stevens Advantage laminate patterns and 3mm edgings.

Units must be installed on hard surface floors, such as wood, tile or concrete, and the floor must be level within ¼" within a 6' span in both directions (from the front of the cabinet). These high density cabinets should not be installed on carpet or other impressionable flooring. Units must always be positively fastened (anchored) to the floor structure and building. A minimum 4"-6" clearance to ceilings is recommended. Unit assemblies require field installation and must be performed by a skilled professional.

Folio Storage: Fixed Base

10 $\frac{7}{8}$ "W x 15 $\frac{1}{8}$ "H x 18"D compts.

FIXED BASE

Fixed base folio units are intended for a permanent type installation. These models are typically part of a larger fixed installed elevation and require an additional countertop. Unit exterior backs are unfinished with exposed elevation ends laminated in selected laminate choice. Toe kick areas typically covered with a vinyl base application by flooring contractor. Fixed cabinetry folios are available in Stevens Advantage laminate patterns with standard Pearl White interior.

Available for: Choral, Band/Orchestra, Marching Band and Choral/Band applications.

Folio Storage: Freestanding Base

10 $\frac{7}{8}$ "W x 15 $\frac{5}{8}$ "H x 18"D compts.

FREESTANDING BASE

Freestanding base folio units come complete with finished ends, back and top. These units are most flexible in that they can be located without regard to exposure of unit surface (all exposed faces are laminated for finish visibility). Freestanding base folio designs are available in Stevens Advantage laminate patterns with standard Pearl White interior.

Available for: Choral, Band/Orchestra, Marching Band and Choral/Band applications.

TALL

Tall folio units are intended for a permanent type installation. These models are typically part of a larger fixed installed elevation. Unit exterior backs are unfinished with exposed elevation ends laminated in selected laminate choice. Toe kick areas typically covered with a vinyl base application by flooring contractor. Fixed cabinetry folios are available in Stevens Advantage laminate patterns with standard Pearl White interior.

Available for: Choral, Band/Orchestra and Choral/Band applications.

MOBILE

Mobile folio units come complete with finished ends, back and top. These units are most flexible in that they can be located without regard to exposure of unit surface (all exposed faces are laminated for finish visibility). Mobiles have large 5" swivel casters for ease of transport and rotation. Two casters have locking tread brakes. Mobile folio designs are available in Stevens Advantage laminate patterns with standard Pearl White interior.

Available for: Choral, Band/
Orchestra and Marching Band
applications.
