MODEL NUMBER DEFINED

Cabinets are defined using the 5-digit model number associated with the design illustration. The complete unit definition requires the width, height and depth suffix to properly identify the cabinet desired.

HOW TO ORDER

To order a cabinet, provide the model number, followed by the desired nominal width, height and depth, chosen from the available sizes listed.

For example, to order a 47129 cabinet that is 24" wide by 84" high by 14" deep, specify:

47129248414

STACK-ON ASSEMBLIES

Stack-On units are designed to be placed on top of standard tall cabinets, allowing additional upper storage utilization.

Advantage Scientific cabinets can be produced to a maximum 90H nominal in a one-piece vertical assembly. When taller cabinet assemblies are desired, Stack-On units provide the solution. Stack-Ons may be added to 84H nominal (2137mm / 84.13") and 90H nominal (2297mm / 90.43") Tall cabinets.

Stack-On units may also be utilized to span more than one Tall cabinet below. For example, two 24"-wide Tall units could use a single 48"-wide Stack-On. Note that, due to side hinge reveals, vertical gaps will align, but width spacing of gaps may vary due to hinge hardware selected.
