

4400 A-tech Classic Series Laboratory Casework

A-tech SURFACE:

- is Stevens Advantage® engineered thermoset resin surfacing, embossed and thermofused in solid colors and woodgrain finishes simulating wood veneers.
- creates a non-porous, moisture-resistant face homogenous to the core, not susceptible to separation or delamination, and having moisture and chemical resistance.
- meets the requirements of Scientific Equipment and Furniture Association SEFA 8 Cabinet Surface Finish Tests (Section 8.1) (see test results in the "SEFA 8 Testing of Stevens Advantage® Casework" brochure).
- demonstrates performance superior to typical wood finishes on the market.
- is ideal for educational and commercial laboratory environments.
- provides the look of wood veneer laboratory cabinets without the high cost.
